Course Specific Open-Ended Responses:

What are the strengths of this course?

Comments
My TA was nice and made sure we understood what the professor is asking for and what will be on the exams.
If you had questions about the homework or tests they could be answered.
the exercises are very helpful
TA have helpful insight to certain economic principles.
There was time to ask questions and review topics.
Material learned very applicable to world
she helped us with concepts and things to focus on
It helped clarify any questions from econ
Great lesson plans
The strengths of this course are that it was a discussion for Econ so we would just get to go over the confusing parts and try to understand better than when the professor would rapidly explain these difficult topics during our actual class.
It provided great topics that can be applied today.
Going over topics we learned in class.

What would have improved your learning in the course?

Comments
Getting rid of MobLab assignments, they are not helpful in the slightest.
I feel like the discussion session overall was a waste of time, especially the moblab activities.
more engaging in class assignments.
Sometimes I found it in a strange order of what we were doing in class or had a hard time connecting the two. We also did labs that I did not understand or find helpful in learning the material.
Moved way too fast, didn't love the style of note taking
I didn't like all the modab assignments (good for vegging out but not for learning)
Mixing up the format a bit
Smaller class
Nothing could have improved my learning in the course.
The homework site that was used was very unhelpful and ultimately confusing when it came time for exams.
Going over more topics

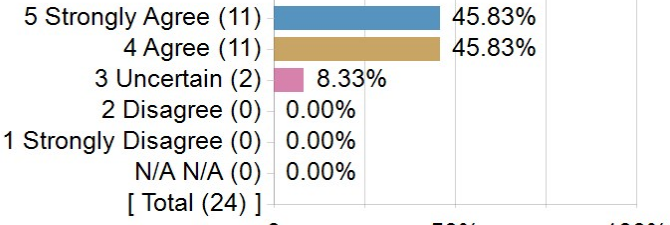

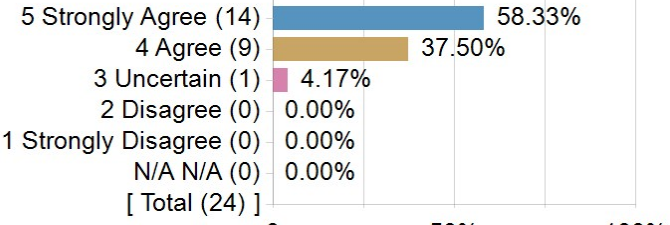

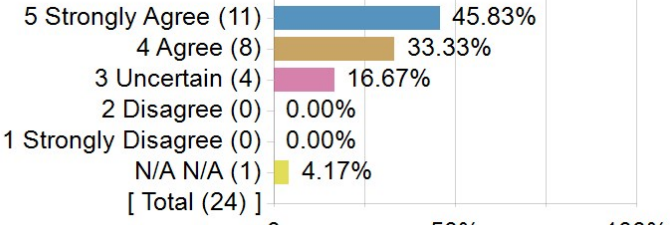

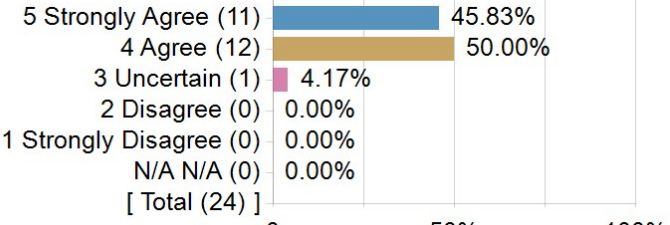

Additional Comments:

Comments
There was nothing wrong with how the TA ran the class I just feel like a discussion session in general is a waste of time.

Did the instructor treat all students with respect, and cultivate an open and welcoming environment in class? How or how not?

Comments
Elena was amazing. Her discussion sessions are what has carried me through this course this semester. She breaks down content very well and goes over any questions that we have without hesitation. She was a blessing to have.
Yes, she was very kind and relatable to the students and made us feel welcome.
Yes.
She was very nice and helpful!
Yes. She was always available and answered all of my questions, which was super helpful.
Very interactive with the students, however moved very fast through material
yes
Yes, Elena was a good teacher, and the classroom environment always felt welcoming and fostered good learning.
Yes, she was very welcoming and always just wanted to help us understand difficult concepts better. The goal of the class was to answer and explain these hard concepts and she did this very well and was always very accommodating for office hours and extra help outside of class.
Yes she was always so kind in our discussion sessions and helped everyone who needed it.
Yes! Elena is the best and is always there for extra help when you need her. She is very helpful in the discussion sections.
